

Driver's Guide to Data Transfer at Roadside Inspection

! IMPORTANT: This document must be kept in the Commercial Motor Vehicle (CMV) at all times, and made available during a roadside inspection in accordance to §395.22 (h). The Drive App supports the telematics transfer, which electronically transfers data to an authorized safety officer on demand via wireless Web Services and Email (Option 1). For more details, see 49 CFR Part 395, Appendix to Subpart B – Electronic Logging Devices (Section 4.9.1).

Roadside Inspections

In the event of a roadside inspection:

1. From the Dashboard, select the **Inspection** tab.
2. Enter a one-time PIN and press **Continue**. Enter the PIN again and **Confirm PIN**.
3. If you choose not to set a PIN, press **No PIN**.
4. Do one of the following:
 - a. To transfer HOS logs, enter the code provided by the Officer in the **Comments** field, and select **Email** or **Web Services** to transfer the report.
 - b. To display the report, select the **Compliance Print** to display the report on your mobile device. Use the arrow buttons to move between days. Scroll through each report to display all information for that day
5. To review the **DVIR**, select the DVIR icon in the top of the screen, and select **Review**. Scroll down and select **View** to see the list of defects used in the inspection.
6. To exit the **DVIR**, close the defects list and select the back arrow at the top left corner of the screen.
7. To exit **Inspection Mode**, select the **X** icon in the top right corner of the screen, and enter the PIN.

*** NOTE:** Compliance Print can be used as an option if both Email and Web Service transfer options fail.
